

## Environmental policy

All employees in GMC Maritime AS care about the environment. We are highly aware of the environmental effects our activities may cause, and will take necessary steps to have a sustainable impact.

Our aim is to ensure that we run our business, production and activities according to our values, relevant laws and regulations and stakeholder's expectations.

GMC Maritime is subject to extensive laws and regulations. This is related to the air and water quality at our facilities, limitations on discharge of pollutant, and standards for treatment, storage and disposal of toxic and hazardous waste.

Our top management is responsible for a continuous improvement of the management system and a continuous improvement of GMC Maritime's environmental impact.
