

Quality Policy

GMC Maritime maintain a Quality Management System according to NS ISO 9001:2015. In all aspects this set the standard for our business operations. We identify objectives by engaging with stakeholders, preparing specifications and executing projects according to plan. We avoid unplanned expenses and ensure high quality in our products and services.

Our goal is to achieve customer satisfaction and to deliver quality products on time, with service second to none. We will strive to establish an environment of mutual trust and understanding, which provides for the education, safety, training and empowerment.

GMC Maritime support our customer's success by consistently delivering services and products on time and meet or exceed their needs and expectations. All of us at GMC Maritime are committed to continuous improvement in seeking and implementing the best ways to serve our customers. We will assist our customers in product development to achieve top quality at the optimal cost level.

We are dedicated to the principles of total quality management through continuous improvement. We will strive to meet this goal through the cooperative effort of our suppliers, employees, and customers, working in a mutually respectful environment towards the common purpose of sustained growth and profitability.
